DETAILED ACTION

1. Applicant's amendment/arguments filed 11/8/06 have been fully considered and they are deemed to be persuasive.

Allowable Subject Matter

2. Claims 1, 3-11, 13-21, 23-30, and 32-33, renumbered as 1-29, are allowed over the prior art of record.

3. The following is an examiner's statement of reasons for allowance:

Regarding Applicant's claimed invention of "a query schema in the memory, the query schema describing one or more query entities; a selected macro in the memory . . . the selected macro into a plurality of macro tokens . . . expand the matched macro token according to the query schema . . . execute the modified select macro . . . each macro token that matches a query entity . . .", combined with "assign entity values to data attributes according to the query schema," would not have been obvious over, nor would have been fairly suggested by the prior art of record.
